INTRODUCTION

Statistics of Virginia Public Libraries and Institutional Libraries 1990 - 1991 provides information on public and state supported institutional libraries in the Commonwealth for the fiscal year ended June 30, 1991. The information was compiled from annual reports submitted to the Public Library Development Division in the fall and winter of 1991.

Public libraries are arranged in groups by population of the legal service area. Institutional libraries are listed by type of facility and, where appropriate, by age of population served.

The following codes were used to indicate missing values:

NA = Data not available
\+ = Electronic calculations could not be made because of missing data

We are pleased to receive suggestions for improvement in order to make this publication more useful. Please contact Peggy D. Rudd in the Public Library Development Division if you have questions or comments.

LIBRARY COLLECTION

NOTES:

- Data were reported for young adult books only if they constitute a separate collection. For those libraries reporting "0," young adult books were counted with adult books or juvenile books, according to local practice.

- Data were reported for government documents only if they constitute a separate collection. For those libraries reporting "0," government documents were counted with adult books, if appropriate.

- Missing values (reported as "NA") affect statewide totals. In some cases, statewide totals are totals for reporting libraries only.
